

# Fiddle Fingers Quilts!

Make a fiddle Quilt base on 8.5" squares unfinished<sup>1</sup>

One Square  
(8" by 8" finished)

Four Square  
(16" by 16" finished)

Six Square  
(16" by 24" finished)

## Requirements

8.5" square(s) of colourful fabric; patchwork cotton or washable textured eg Corduroy, velvet etc

Scraps of fabric for applique; cotton or textured

Bondaweb or basting spray

Wadding large enough for the whole quilt plus 1" all round

Backing ditto

Fabric for binding

Embellishments and Fiddly bits; see Tips sheet [www.fiddlefingersquilts.co.uk](http://www.fiddlefingersquilts.co.uk)

*n.b it is worth spending time on working out your design and planning how you are going to put it together before you begin sewing, especially if you are making Four Square or Six Square because for example you will find some embellishments look better if they are attached by sewing two blocks together rather than applying to the surface only, and the idea is to make the eye move round the quilt just as you would for any other quilt.*

<sup>1</sup> Assumes user knows basic patchwork and quilting terminology and techniques

## Method

1. Design your quilt; select and audition fabric square(s), applique and fiddly bits/embellishments
2. Take a photo before you start to put the quilt together
3. Decide how best to secure any fiddly bits/embellishments – eg do you want to secure them when sewing patches together, would it be best to add them before or after the top is quilted?
4. Sew the squares together
5. Stick applique to your top
6. Make a quilt sandwich
7. Quilt and embellish with fiddly bits
8. Bind to finish

Please do let me  
know if these  
instructions need  
improvement!
